CELLULAR TELEPHONES/DATA DEVICES

SP 2110.00

The Mendocino County Office of Education (MCOE) recognizes that technological advances in communication equipment can provide the County Office with improved levels of service and efficiency and are an important method of conducting MCOE business. Cellular phones offer a practical and economical means for overcoming geographical and time barriers found in rural environments. Additionally, cellular phones often serve as vital aids in emergency and public safety situations. A data device is defined as one which is capable of viewing and changing electronic data such as: sending/receiving email, viewing/changing calendars and contact lists, downloading, uploading and viewing attachments.
